Attached are the Charge Master Description, a list of 25 commonly charged outpatient procedures and a summary of the percent change in gross revenue as required by AB 1627/1045. The prices on the first two reports reflect the prices as of June 1, 2023.

The majority of the items in the Charge Description Master have a fixed price. However, the price of certain items may vary dependent upon the cost of the item (medical supplies, implants, prosthetics, laboratory send-out tests, blood and pharmaceuticals). These prices are subject to change due to new technology, added or eliminated services, goods and/or procedures, changes made by manufacturers and vendors, etc.
